Effective Date: 03/05/2025

Dear Michael Greenburg:

SUBJECT: Amended Initial Reciprocal Certification

The information supplied to this office by the Maryland Department of Environment Water Supply Program and your laboratory has been reviewed. Based on the Maryland Department of Environment Water Supply Program Certification of AMA Analytical Services, Inc., the Michigan Department of Environment, Great Lakes, and Energy (EGLE) will accept the results generated by your facility for compliance monitoring under the Michigan Safe Drinking Water Act, 1976 PA 399, as amended. Our certification for your laboratory by parameter is as follows:

Inorganic Chemistry

Certified Parameters:

Copper and Lead (via U.S. EPA Method 200.8, Rev 5.4)
Copper (via *Standard Methods*, 22nd Edition, 3111B)
Lead (via *Standard Methods*, 22nd Edition, 3113B)

Our acceptance of results and certification of AMA Analytical Services, Inc. Laboratory is contingent on your continued certification by the Maryland Department of Environment Water Supply Program. In addition, your laboratory's certification in Michigan is contingent on your laboratory submitting to this office at least one full set of U.S. EPA proficiency test sample results per year throughout the certification period and the results of any on-site inspections conducted by the Maryland Department of Environment Water Supply Program, or its agents.

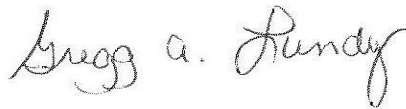

This certificate for your facility will expire on September 30, 2025. Your certification fees are paid until March 5, 2028. Please forward your certificates and on-site inspection report once you renew your certification in your home state. Provided you maintain fully certified status with the Maryland Department of Environment Water Supply Program you will be reissued reciprocal certification for the State of Michigan without charge until the expiration date of your home state exceeds the "Fees Paid to Date" on your Michigan certification.
