Dear Jerry Singh:

SUBJECT: Laboratory Certification Extension:

To allow for the completion of the re-certification process, the Michigan Department of Environment, Great Lakes, and Energy Laboratory Certification Program has extended your drinking water compliance monitoring certification. The expiration date for the certificate issued to RTI Laboratories, Inc. on February 14, 2023, has been extended to allow for the completion of the recertification process.

Our certification for the examination of drinking water is contingent on your continued compliance with state and federal regulations. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state-approved supplier on a running 12-month basis.

This administrative extension to your current certification expires on December 31, 2025. The certification period will be extended to cover the next 3-year certification period when your laboratory has successfully completed the re-certification process.

If you have questions regarding this information, please contact me by phone at 517-930-7040 or by email at lundyg@michigan.gov.

Sincerely,

Gregg A. Lundy
